

Hospital sucks and  
so does Leukaemia

BUT THE GIFTS AND SURPRISES THAT CURE  
OUR KIDS GAVE ME MADE ME FEEL BETTER,  
EVEN JUST FOR A LITTLE WHILE.

**My name's Adam**, I am 8 years old and  
being treated for Leukaemia. I spent 232  
days in hospital, which is a long time. When I  
was in intensive care everyone thought I was  
going to die - but I promised mum I'd be OK.

Hospital can be really scary. But I was lucky  
'cause I got special surprises from Cure Our Kids...

I got the Harry Potter 5 book as soon as it came  
out, a cool car from the movie Cars, a huge  
python, a mountain bike, a Simpsons PlayStation  
game, bravery beads every time I had a  
procedure and even a holiday at the beach when  
I finally got out.

**IT WAS AWESOME !!!**

Thank you Hedge Fund Industry for  
helping Cure Our Kids help kids like me.
